Profile Summary

Motivated and detail-oriented Full Stack Web Developer with hands-on experience building responsive and user-focused web applications using React.js, Node.js, Express.js, and MongoDB. Proficient in developing dynamic frontends and secure backends, with a solid foundation in HTML, CSS, JavaScript, and version control tools like Git and GitHub. Completed multiple real-world projects, including a text utility app, and A full-featured food ordering platform with advanced authentication and cart management. Certified in Advanced SEO, Full Stack Web Development, and React, with a strong commitment to continuous learning and delivering high-quality solutions.

Technical Skills

Programming Languages: HTML, CSS, JavaScript

Frameworks & Libraries: React.JS,, Bootstrap

Developer Tools: Git, GitHub, Visual Studio Code

Projects

FoodMall:

o Developed a modern food ordering web application using React (Vite), featuring dynamic food categorization for seamless browsing and filtering of dishes.
o Implemented advanced login and registration system with secure user authentication and session management to enhance user data protection and experience.
o Integrated an add-to-cart and order tracking system, allowing users to add, update, and remove food items with real-time price calculation and smooth UI feedback.
o Link: https://food-mall.vercel.app/

Text Utils:

o Created a text utility application with React and Bootstrap, offering tools like case conversion and text copying.
o Enhanced usability with responsive and accessible interfaces for seamless text operations.
o Link: https://text-utils-five-silk.vercel.app/
